Food Shippers of America Becomes ALAN 2024 Sustainer

Lakeland, FL. – The American Logistics Aid Network announced today that Food Shippers of America (FSA) has become a 2024 ALAN Sustainer Sponsor.

“Working in disaster relief means that you have to be ready for a lot of unexpected challenges,” said ALAN Executive Director Kathy Fulton. “Knowing we can count on FSA’s partnership each year provides a level of support that is instrumental in our ability to respond to disaster. We are so grateful it continues to champion our work.”

FSA has been an ALAN supporter for more than a decade. Its ongoing donations have helped ALAN grow its operational capacity and have contributed greatly to ALAN’s humanitarian relief efforts.

“Food Shippers is continuously donating to charitable causes that facilitate a positive impact on the communities that they serve. We feel ALAN’s efforts are essential and beneficial to the communities that receive their support and their values reflect the type of organization we want to support,” said FSA Executive Director Paul Newbourne.

###

About Food Shippers: Food Shippers of America (FSA) is an industry non-profit association that brings together a community of supply chain, transportation and logistics professionals with common interests, industry challenges and opportunities. Founded in 1955, FSA provides education, peer networking, and resources that bring supply chain efficiencies, best practices, and professional development to its members. FSA also awards annual scholarships to members’ family members as part of their educational efforts.

About ALAN: Founded in 2005, ALAN provides donated logistics assistance to disaster relief organizations before, during and after catastrophic events. It is aided in these efforts by financial supporters, volunteers and in-kind donors. In 2022 and 2023, it coordinated compassionate supply chain services for disasters such as Hurricane Idalia, the Maui wildfires, the Southwest tornadoes, the California winter storms, the Türkiye-Syria earthquakes, Hurricane Ian, Hurricane Fiona, the attacks on Ukraine, the flooding in Eastern Kentucky, and the COVID-19 pandemic.
