### **ALAN Names International Warehouse Logistics Association 2023 Sustainer**

Lakeland, FL. – The American Logistics Aid Network announced today that the International Warehouse Logistics Association (IWLA) has become a 2023 ALAN Sustainer.

“Sustainer level donations do exactly what the name suggests – allow ALAN to maintain and expand its operations in order to provide critical disaster relief aid to communities in need for months, even years, after disasters occur,” said ALAN Executive Director Kathy Fulton. “Disaster recovery is a long process, and it’s uplifting to see that the logistics and supply chain industry is committed to helping communities rebuild. We’re especially grateful to IWLA and its member organizations for supporting ALAN for many years through its donation match program.”

IWLA’s contribution will help ALAN grow its operational capacity and contribute greatly to ALAN’s humanitarian relief efforts.

“IWLA members – North America’s best warehousing companies – are committed to supporting ALAN financially and by donating their services, space, and expertise,” said IWLA President and CEO Jay D. Strother. “They are able to help with warehousing, material handling, transportation, and more during times of disaster. Plus, IWLA members can donate to ALAN via their membership renewal in the organization.”

###

About IWLA: Since 1891, the International Warehouse Logistics Association has been the unified voice for the third-party warehousing industry. More than 500 member companies across North America turn to IWLA as the resource for warehouse education, networking, advocacy, and business services. Find out more at [www.IWLA.com](http://www.IWLA.com).

About ALAN: Founded in 2005, ALAN provides donated logistics assistance to disaster relief organizations before, during and after catastrophic events. It is aided in these efforts by financial supporters, volunteers and in-kind donors. In 2023 and 2022 it coordinated compassionate supply chain services for disasters such as the southeast tornadoes, the Türkiye and Syria earthquakes, Hurricane Ian, Hurricane Fiona, the attacks on Ukraine, the flooding in Eastern Kentucky, and the COVID-19 pandemic.
