Kenco Makes Sustainer-Level Donation

Lakeland, FL. – The American Logistics Aid Network (ALAN) announced today that Kenco is now a 2024 Sustainer-level Partner.

“Kenco’s generous contribution showcases how committed the supply chain industry is to investing in effective and efficient disaster relief,” said ALAN Executive Director Kathy Fulton. “We’re thrilled to welcome it as a 2024 partner and look forward to highlighting the major impact it will have on our ability to respond to disaster.”

Kenco’s contribution arrived in conjunction with a Sustainer-level gift from Shippers Group, which Kenco acquired in 2023. The partnership of these industry powerhouses will greatly support ALAN as it enters a new phase of growth and leadership in the disaster relief space.

“Our team at Kenco works to bring people, processes and technology together to orchestrate and enable positive outcomes and results for our customers,” said Kenco CEO Denis Reilly. “We are proud to support ALAN as the organization strives to achieve the same for those impacted by disasters and demonstrates to our industry that compassion and supply chains can and should go hand in hand.”

###

About Kenco: Kenco supplies integrated logistics solutions that include distribution, eCommerce fulfillment, comprehensive transportation management and material handling equipment services, and customized supply chain solutions – all designed for Operational Excellence. Kenco continues to be a leading 3rd party logistics provider in North America, building lasting customer relationships for over 70 years. Kenco’s focus is to support customers’ business needs through connected solutions and to redefine third-party logistics by offering innovative solutions.

About ALAN: Founded in 2005, ALAN provides donated logistics assistance to disaster relief organizations before, during and after catastrophic events. It is aided in these efforts by financial supporters, volunteers and in-kind donors. In 2023 and 2022 it coordinated compassionate supply chain services for disasters such as the Maui wildfires, Hurricane Idalia, the southwest tornadoes, the southern

border crisis, the California winter storms, the Türkiye-Syria earthquakes, Hurricane Ian, Hurricane Fiona, the attacks on Ukraine, the flooding in Eastern Kentucky, and the COVID-19 pandemic. To learn more, visit <http://www.alanaid.org>
