MHI Becomes ALAN Sustainer

Lakeland, FL. – The American Logistics Aid Network announced today that MHI has become a 2022-2023 ALAN Sustainer.

“In the past two years alone, ALAN has enabled the delivery and distribution of more than \$10 million in relief supplies for hurricanes, floods, tornadoes, and the pandemic. That’s only possible because of the support of organizations like MHI, whose generous donation arrived just as we began fulfilling requests for disaster aid after Hurricane Fiona and Hurricane Ian made nearly back-to-back landfalls,” said ALAN Executive Director Kathy Fulton.

MHI’s contribution will help ALAN grow its operational capacity and contribute greatly to ALAN’s humanitarian relief efforts.

“It is MHI’s honor to be a founding member of ALAN, and to provide ongoing logistics assistance and donations as they provide important disaster response, most recently, to support ALAN’s work with Hurricane Ian recovery,” said John Paxton, CEO of MHI.

###

About MHI: [MHI](#) is an international trade association that has represented the material handling, logistics and supply chain industry since 1945. MHI’s over 900 members include material handling and logistics equipment and systems manufacturers, integrators, consultants, publishers and third-party logistics providers. MHI offers education, networking and solution sourcing for their members, their customers and the industry as a whole through programming and events. The association sponsors the [ProMat](#) and [MODEX](#) expos to showcase the products and services of its member companies and to educate manufacturing and supply chain professionals. The Warehouse Education Research Council, (WERC) is a division of WERC and provides education and research to the warehouse, distribution and logistics community.

About ALAN: Founded in 2005, ALAN provides donated logistics assistance to disaster relief organizations before, during and after catastrophic events. It is aided in these efforts by financial supporters, volunteers and in-kind donors. This year it has coordinated compassionate supply chain services for disasters such as Hurricane Ian, Hurricane Fiona, the attacks on Ukraine, the flooding in Eastern Kentucky, the December tornadoes and the COVID-19 pandemic.
